

Dr Ben's Cedar Oil Roach and Ant Control Spray Formula

Tested and proven by Iowa State University and acknowledged by the USDA as the number one choice for Bio Based Pesticides.

16 oz. Spray

This product is Ready-to-Use and can be used around all types of wood, cloth and leather furniture. Also safe on mattress and box springs, carpets, and similar surfaces. Will not stain or attract dirt. Dr. Ben's Roach and Ant Control is considered a contact kill agent that is effective against many insects and will dehydrate insect eggs too. Pheromone interruption properties inherent in cedar oil will create a natural barrier to these pest and therefore repel newcomers to the area.

Directions for Use:

Shake well before use. Hold bottle upright. Do not spray up into air. Point sprayer directly at insect(s). Holding the sprayer about 16 to 18 inches away be sure mist comes in contact with insect. Or spray along walls and baseboards, behind appliances, furniture inside cabinets, around doorways and around windows.

For larger indoor areas we recommend our Dr. Ben's Evictor product available in one gallon jugs.

For outdoors, we suggest applying our Nature's Defender PCO Choice Concentrate Formula.

32 oz. Spray

EPA exempt product 25 B
